

# Get started - Cloud login

## Introduction

Oracle Cloud is the industry's broadest and most integrated cloud provider, with deployment options ranging from the public cloud to your data center. Oracle Cloud offers best-in-class services across Software as a Service (SaaS), Platform as a Service (PaaS), and Infrastructure as a Service (IaaS).

Estimated Time: 5 minutes

## Types of Cloud Accounts

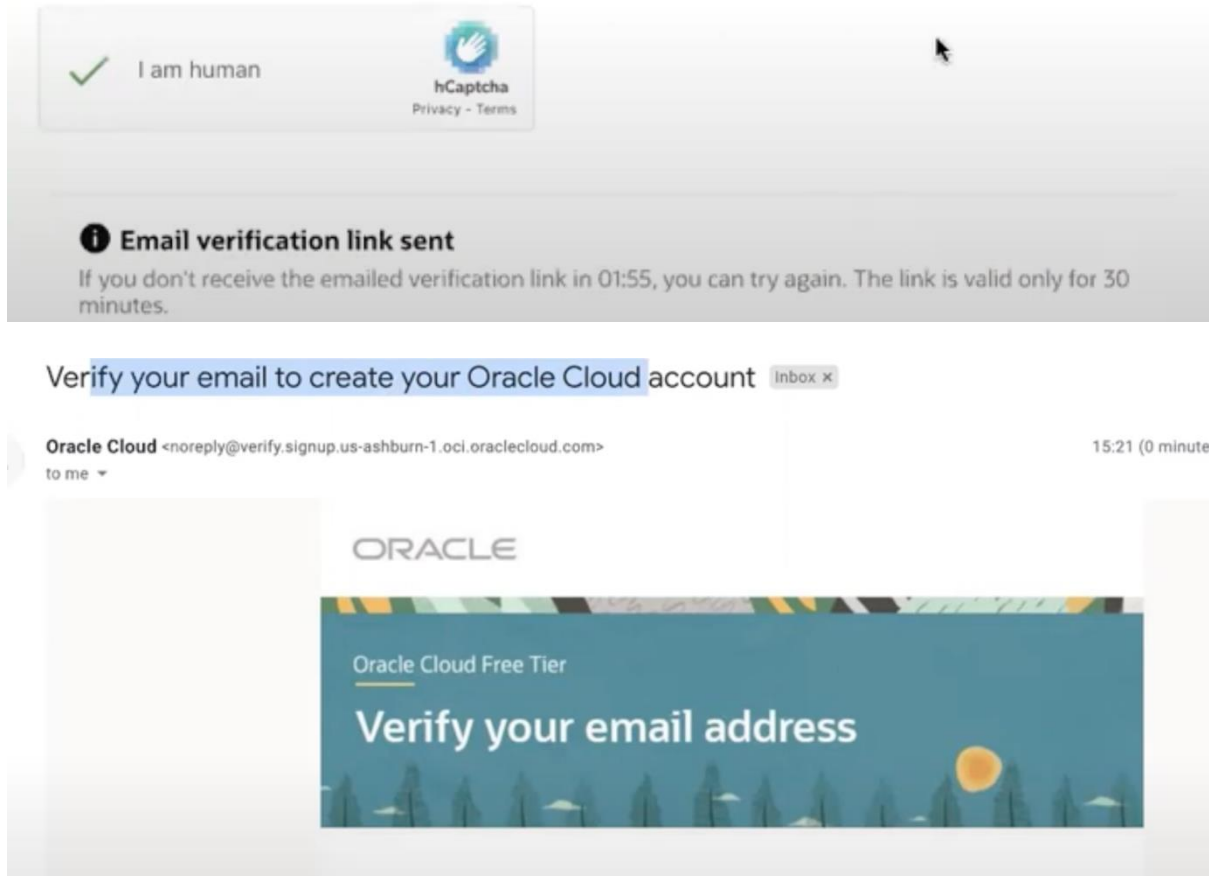

We offer two types of Cloud Accounts:

***Free Tier Accounts:*** After you sign up for the free [Oracle Cloud promotion](https://www.oracle.com/es/cloud/free/) or sign up for a paid account, you'll get a welcome email. The email provides you with your cloud account details and sign in credentials.

5. Add payment information: **YOU WON'T BE CHARGED UNLESS YOU ELECT TO UPGRADE THE ACCOUNT.** This step is required in order to check user authentication (one user, one account).

**Oracle Cloud Paid Accounts:** When your tenancy is provisioned, Oracle sends an email to the default administrator at your company with the sign-in credentials and URL. This administrator can then create a user for each person who needs access to the Oracle Cloud. Check your email or contact your administrator for your credentials and account name.

+ If your 'teacher' have done the previous steps he will provide your your Oracle Cloud Account details and only need cloud account name, username and password

## Login to Oracle Cloud

If you've signed out of the Oracle Cloud, use these steps to sign back in.

1. Go to [cloud.oracle.com](https://cloud.oracle.com) and enter your Cloud Account Name and click **Next**. This is the name you chose while creating your account in the previous section. It's NOT your email address. If you've forgotten the name, see the confirmation email.
